This is a report on how we support children and young people with Special Educational Needs and Disabilities (SEND) at our school. We also have a SEND Policy which can be found on the Avanti Gardens School website or by asking for a copy for the school office.

Avanti Gardens is an Academy part of the Avanti Schools Trust. We deliver an educational journey from the age of 4 to 11 that promotes each child's development, both academically and socially, to ensure they reach their full potential. We are fully inclusive and believe that every child, regardless of any special educational needs or disabilities (SEND), should be given the opportunity to reach their full potential and be successful throughout the whole of their primary education, in accordance with the 014 Schools Code of Practice.

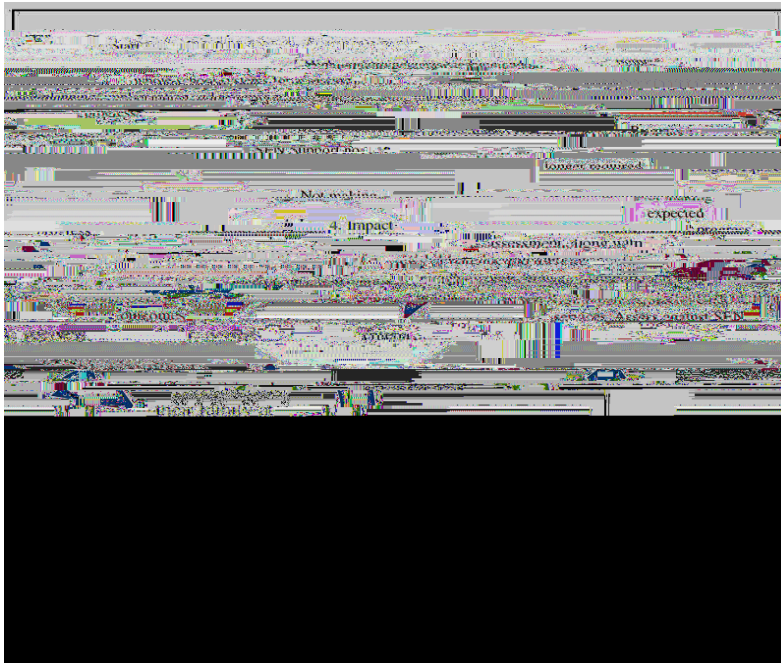

Our philosophy is that every child should be able to access the core skills needed to achieve academic excellence through a rich and varied programme of learning that promotes individuality and achievement. We ensure that our Academic Policy does not discriminate against children who have been identified as having special educational needs or disabilities.
